NADER OPPOSES SELF-HELP, EXCEPT FOR NADER...

MOVING? Please use form inside paper and give full information. Mailing list is run on Friday for follow-up week.

We noted with some interest that the Livestock Marketing Congress '77 had invited Ralph Nader to address that group up in Calgary the other day and we always wonder why some folks who set up these programs do what they do, but since it is their problem, we don't get exercised about it. However, as could be expected Nader went into considerable detail about what he considers "consumer rights", which transcend the rights of one and all, and we have always felt that FIC officials who labelled Nader a dirty Arab SOB, was a lot closer to home plots than some of the plotters who been seen on the boob tube recently.

Nader, Nader gets his bread and butter from donations and he has to keep the Pot of Discontent boiling or he might have to go to work for a living. Without the contributions from melonheads, who resent the fact that farmers & ranchers, as well as other business folks, are entitled to make a honest living & a reasonable profit on the toll they perform, the Consumers he

TS&GRA Convention Plans Announced

The 82nd annual convention of the Texas Sheep & Goat Raisers' Association offers a little something for everyone.

Set at the foot of the Hills, Kerrville, on Friday and Saturday, July 22-23, the convention promises a full slate of activities including receptions, dance, the annual banquet and awards ceremony, scenic and historic bus tours, as well as the on-site fair.

Registration begins at 9 a.m. Friday and continues through 6 p.m. The Texas Animal Damage Control Assn. will meet at 10 that morning, followed by the past presidents' luncheon at 11. Committee meetings begin at 1 p.m. and the evening session will feature the annual meeting and the tax and labor committee.

Later that afternoon, the health and product development and natural resources committees will meet, followed at 5 p.m. by the districts 6 and 11 caucuses and the general resolutions committee.

A reception hosted by American Cyanamid Co. is set to begin at 7:30 a.m. Saturday. Activities include the convention general session featuring the keynote address by the speaker, Jim Nugent, president of California Wool Growers and current treasurer of National Wool Growers Assn., will report on NWGA activities. Past TS&GRA president, Shilton Allison, San Angelo, is scheduled to outline current activities of the American Sheep Producers Council and wool and lamb committee.

Slowdown in Pork Production Provides Encouragement that Red Meat Surplus May Help Meat Prices in the Future

Washington, June 23 (USDA)—Inventory of hogs and pigs on June 1, 1977 in the U.S. is established at 64.1 million head, up fractionally from last year but 12% above two years earlier, according to the Crop Reporting Board.

Breeding inventory at 8.6 million is up 2% from 1976 and up 16% from 1975.

Market hogs inventory, at 45.5 million head, is down slightly from 1976 but 12% percent above 1975.

The 14 quarterly states accounted for 86 percent of the U.S. inventory with 46.1 million head, slightly above 1976 and 18% above 2 years earlier.

Pig crop (December 1976-May 1977): The December 1976-May 1977 U.S. pig crop was 43.1 million head, 2% more than last year and 21% above the same period two years ago.

A total of 0.1 million sows farrowed during this period—5% more than a year earlier. This period's litter size was 11.1 pigs was the lowest since 1974 and compared with 7.23 last year, reflecting the large death loss of young pigs due to the unusually cold winter. Death loss of hogs and pigs of weaning age and older was about one-fifth higher than for the December 1975-May 1976 period.

Pig crop in the 14 quarterly states at 37.1 million head during the December 1976-May 1977 was 8% above a year earlier. The pig crop for the December-February quarter was 15.7 million head, up 5%. The March-May quarter totaled 21.4 million, down one%.

Hog producers intend to farrow 6.1 million now during the June-November 1977 period. This is an increase of 6% from the corresponding 1976 period and 24% above the same period in 1975.

If those intentions are realized along with an average litter rate, a pig crop of 44.4 million would be expected. If these projections are realized the pig crop would be 5% more than the June-November pig crop of 1976 and the largest since the 1971 June-November total.

The 14 quarterly states expect to farrow 5.3 million sows during June-November 1977, up 6% from 1976. An increase of 5 and 4% is expected for the June-August and September-November quarters, respectively.

Fed Cattle, Hogs Continue Upward Turn Around Major Market Circuit

Lighter supplies of slaughter cattle and hogs appeared around the major terminal markets Monday and the recent improvement in prices was continued. Price trends, quotations of choice and prime steers and heifers and the mixed good and choice grades and 100 lbs. included:

Omaha fed cattle 75 to \$1 higher, steers \$40.50 to \$41.75 and \$39.50 to \$40.50; heifers \$39.50 to \$41 and \$38.50 to \$39.50. Hogs \$50 to \$51 higher, steers \$40 to \$41.50 and \$39 to \$40; heifers \$39 to \$40.50 and \$38 to \$39. Hogs \$50 to \$51 higher at \$45 to \$47. Kansas City fed cattle \$39.75 to \$40.50 and \$38 to \$40. Hogs \$40 to \$41 higher at \$44 to \$47.25.

St. Louis fed cattle \$39.50 to \$40.50 and \$38 to \$39. Hogs \$40 to \$41 higher at \$44.50 to \$46.75.

St. Paul steers \$40 to \$41 higher at \$44.50 to \$46.75.

St. Paul steers \$40 to \$41 higher at \$44.50 to \$46.75.

St. Paul steers \$40 to \$41 higher at \$44.50 to \$46.75.

TEXAS HOGS SHOW GAIN OF 1%

All hogs and pigs in Texas on June 1, 1977 totaled 910,000 head, according to the Texas Crop and Livestock Reporting Service. This is 1% above a year ago, and 14% more than on June 1, 1975.

(CONT. ON PAGE 2)

Over 295,000 Cattlemen Registered For Beef Referendum, Texas Leads With Over 42,000. Importance Of Voting Stressed

Registration figures in the nation's first Beef Referendum are in and it appears that over 42,000 cattlemen registered in Texas. In the U.S., over 295,000 producers have registered. These figures were released today by the Texas Beef Development Task Force (TBDF).

The top ten states in numbers of registrants are Texas with 42,000; Kansas, 24,000; Iowa, 20,900; Nebraska, 20,000; South Dakota, 17,000; Oklahoma, 16,000; Tennessee, 14,849; Missouri, 14,000; North Dakota, 11,800; and Montana at 9,500.

The figures were compiled by the TBDF through its state and county leaders. Some state figures are final counts, while others are approximate figures.

"We're extremely pleased with the interest and turnout," says J. D. Bartwell, a rancher from Seely and chairman of the Texas TBDF. "More than 1,000 cattlemen on the Texas

(CONT. ON PAGE 1)

Finish the Job! Vote July 5-15 in the Beef Referendum!

Over 295,000

(CONT. FROM PAGE 1)

BDT have worked to inform cattlemen about the merits of the program and pushed for a high registration, says the rancher. "This dedicated work and wide-spread news coverage by the Texas media are responsible for the large registration turnout," he adds.

Only cattlemen who registered during the June 6-17 sign-up at their local ASCS office are qualified to vote July 5-15.

With the passage of the Beef Referendum, the cattle industry will have means of stabilizing our industry and increasing profits for cattlemen," Sartwell says. He points out that the

Beef Referendum, if approved by two-thirds of the producers voting next month, would raise an estimated \$30 million to \$40 million annually. This money would be used for beef research, education, promotion and foreign market development. Cattle producers would assess themselves 8/10 of 1% (.80 per \$100 value) for each animal they sell. The

money would be "passed through" at the point of sale, but money would be remitted only at the time the animal is slaughtered. The funds would be sent to a national Beef Board, administered by 38 cattle producers from the major cattle producing states.

"The 68 producers will be nominated by cattle organizations in each state. The nominees will be selected from these associations either by a membership election or through appointment by the directors of each group," Sartwell points out. The Secretary of Agriculture will confirm the appointments and assure that the funds are properly invested in accordance with the law, he adds.

"In order for the Referendum to be valid at least 50% of those who registered must return to their ASCS office and vote. Then, at least two-thirds of those voting must vote 'Yes' before the program will be put into effect," the BDT chairman says.

This may be the last opportunity that producers have to vote on a self-help program," concludes Sartwell. "So we urge every producer who registered to return and vote 'Yes' for a more profitable beef industry."

TEXAS HOGS SHOW GAIN OF 1%

(CONT. FROM PAGE 1)
1, 1976. Market hogs were unchanged and breeding hogs increased 3% from a year earlier.

The March-May pig crop is estimated at 331,000 head, 5% less than the number saved during the same period last year. A total of 43,000 sows farrowed during the quarter, up 7%, but pigs saved per litter was only 6.90 compared to the 7.60 average during March-May 1976.

Texas farmers plan to farrow 95,000 sows during June-November, up 9% from the same period last year. Intentions are for 53,000 sows to farrow during June-August and 42,000 during the September-November period.

Stuph & Thangs

(CONT. FROM PAGE 1)

representative seems to think private enterprise is like the Govt. Let a great big Christmas tree from which they should be able to graze without paying a ticket.

When the Great Nader addressed himself to the matter of the Beef Referendum, he demonstrated his complete ignorance of what thangs are all about. This got him in a bad way way worse for him in such matters.

What Nader said was that he figured this Beef Research & Information project as just another rip-off and consumers would pay the bill. This was typical of his approach to any problem.

Nader, like most of the Consumer Advocates, thinks that farmers & ranchers should work their tails to the bone, average less income per hour than anybody including wetbacks, and be happy just to keep the Consumer well fed, fat & happy.

To demonstrate how Nader ignorance operates, he went on to say that he felt that the food industry,

Govt., and one & all, should be puttin' their efforts into education on nutrition, outbreed research, consumer information, new product development, etc. Th' sad thang is that all of these goals which Nader brung up are what th' Beef Research & Information project is all about.

It is truly th' tragedy of our times that people like Nader and other people considered Consumer Advocates are so busy muddin' th' waters to be sure they keep th' cash comin' in, that they calot stay within shoutin' distance of th' facts.

One of these days, hopefully, th' Amarlean people will be able to see through people like Ralph Nader. These rabble rousers make a very good thang out of fightin' phantoms and this shadow boxing pays handsomely.

Accordin' to our information Nader refuses to divulge anything about his personal financial take, this is none of your or my business. Okay, that's fine, but when one of these gold brick peddlers horns in on my bizness, he'll get off light with flat bein' called an Arab SOB. Maybe phoney Arab SOB fits better!

Ever thios, The Editor.

P.S.: Uoble Dunk figgers our peerless political leaders in Washington must have been th' authors of a statement he saw th' other day in a faller's office. It said "I know that you helleve you understand what you think I said, but I am not sure you realize that what you heard is not what I meant!" Among! Dunk claims th' new approach at tryin' to inject a little intelligence into th' OSHA regulations & enforcement brought on th' quote of th' mouth from Commerce Secy. Juanita Kreps, who allowed as how "Already we have wiped the foam off OSHA's mouth and wrestled it into a straitjacket." Let's hope so! Dunk says these Washington rumors that acreage controls & allotments on farm crops are gittin' serious consideration from th' Carter Administration are a lot more than just rumors. They are almost certain to be reinstated in time for next year's crops. Thassall, Brothers!

Kills Ear Ticks

Prevents Screw Worm Ear Infestation

Y-TEX TICK TAGS

- Quick — One Second to apply
- Effective — Kills Ear Ticks
- Inexpensive — Only \$1.00 per cow
- Long-lasting — All Season Long

Just in time — season-long control of the Gulf Coast Ear Tick and a great reduction in the chance of screw worm attack on cattle ears — thanks to "TICK TAG", impregnated with the insecticide, "DURSABAN".

The cost is low, the savings are high in terms of reduced weight loss and high cost of other methods of ear tick control. The "TICK TAG" is clear plastic and blends into any herd color; does not interfere with identification ear tags and installs quickly with the proven Y-TEX push-pull applicator.

TICK TAGS are packed 20 per carton along with a free Y-TEX applicator. That's enough to protect 10 animals and it costs only \$10.00. Ask for them wherever animal health products are sold. If they don't have it in stock they can get it for you in one day.

Remember, an ounce of prevention is worth pounds of cure!

CATTLEMEN:

What are you going to do about...

- ... the ten million vegetarians in the U. S., whose numbers are increasing at the rate of one million per year?
- ... the claims that beef is bad for your health — that it causes heart disease, colon cancer and overloads the kidneys?
- ... the new meat substitutes which are now being so highly advertised?
- ... the consumer activists who believe that cattlemen are getting rich and who say, "Food is for people, not for profit?"

About the only thing you can do is vote YES in the Beef Referendum, July 5-15.

Joe F. Bennett: Shorthorns Are Rootstock Of Big Breeds

Coolidge, Texas—Joe F. Bennett, owner of Circle B Ranch and a partner in Bennett-Haupt Shorthorns, knows that Shorthorns are the rootstock of the "Big" breeds of cattle throughout the world, but for years has let his customers cull my herd by selecting the cows which stay fat while nursing a calf.

That's because Bennett has good reason to believe the "keepers" are the cows which "pull down" when nursing a calf because their bodies turn the feed they consume into milk instead of maintaining body fat.

"When a prospective buyer comes into my herd looking for cows to add to his herd, he invariably picks out the fat ones—and they are the ones which are wearing the lightest weighing calves," Bennett says.

To Bennett, that somewhat incon-

gruous attitude toward Shorthorns is responsible for their somewhat waning popularity. The fact that the cows do lose weight while nursing a calf.

"But, to me that's one of their best points—it's a sure sign that they are doing the job they should do—wear a big calf," he says.

By big calf, Bennett means one that weighs around 50 to 55 percent of the dam's body weight, somewhere in the range of 500 to 550 pounds on bulls and about 40-50 pounds lighter on heifers from cows which cross the scales at around 1,000 pounds or slightly more.

Conforming to changing ideas about what beef cattle should look like isn't one of Bennett's fortes. He believes, with reason, that those changing ideas produce cycles in popular standards which fluctuate up and

Joe F. Bennett, owner of Circle B Ranch, is shown with a one-day old calf born to first calf heifer. He guessed this calf to weigh less than 40 pounds and said it is typical of the size of his Shorthorn heifers' first calves.

down in the size of the cow desired by many breeders, so that the cycle "passes my way" about once every three years.

Weaning a big calf isn't the end result that Bennett looks for. Consistently through the years since the late 1940's when he started in the Shorthorn business at the insistence of his father-in-law, who said "just take a couple or three of these Shorthorns and compare them with your Herefords over a few years. Bennett doesn't "knock" Herefords or any other breed of cattle, but he believes his own experience bears out the proven theory that Shorthorns add the milking ability to other breeds they are crossed with, while maintaining the beef conformation, that has made them the most popular cross-breeder in the world (Shorthorns are the basic cross which has resulted in 32 distinct breeds of other cattle).

One of the first bulls Bennett bought gained 3.9 pounds per day on feed test for 140 days, and a half brother to that bull was the first bull to show a 4.6-pounds-per-day gain of official test at the Corcoran test station. Bennett's bull produced the high testing pen of bulls later at the Texas A&M Experiment Station at McGregor.

"Those bulls were fed on Johnson green, hogani and 10 percent grain, but they had the best feed-conversion ratio of 6.7 pounds feed for one pound of gain posted at that test station to that time," he said.

Bennett and his brother-in-law, Louis M. Haupt, Bryan, have been consistent buyers of Shorthorn bulls

A typical cow in Joe Bennett's registered Shorthorn herd.

Too big for her time was this cow which was Joe F. Bennett Jr.'s first show heifer, and one judge placed her 11th in a class of 14, but she proves two points for Joe F. Bennett: show heifers can become productive cows, and the long, productive life of Shorthorn cows. She's now 13 1/2 years old and has her 12th calf at side.

Aberfeldy North Star, sire of Joe F. Bennett's older Shorthorn herd sire. This son of Red Gaudin has performed well, siring sons that Bennett considered to be better than he is.

This is Aberfeldy Scoutmaster, three-year-old Shorthorn sire recently acquired by Bennett-Haupt Shorthorns from Aberfeldy Farms in Canada. He sees duty at Joe Bennett's Circle B Ranch at Coolidge and L. M. Haupt's ranch near Bryan.

From Aberfeldy Farms, Melton, Ontario, Can., and have had much success with them. And by using them in his herd, Bennett believes he has been able to produce offspring which "are better bulls than their daddy."

A lastment to success of Bennett's Shorthorn breeding program is the fact that: 1. Most of his bulls go to commercial producers of other primary breeds of cattle to produce heavier weaning calves; 2. Most of his heifer and steer calves go to 4-H and FFA club members for showing; and 3. He hasn't bought a female Shorthorn since 1968, upgrading his herd instead with innovation of cow bloodlines through the sires.

Bennett, who is nearing eligibility to retire as postmaster at Coolidge, is a graduate of Texas A&M, and whose son, Joe F. Bennett Jr., is also an Aggie and now a practicing veterinarian at Mexia, says that the presently popular liking for "big" cows once nearly tempted him into switching to Beefmasters or Santa Gertrudis, but on analyzing the situation he realized that he'd only be going to cattle which were only part Shorthorn. "Somebody's got to raise the purebred rootstock for the crosses that produce

Clovis Auctions

Double D Announces Two Shorthorn Dispersals in August

Whecom, Texas—James Duncan and Jack Dillard, owners of Double D Auction Service here, have announced two big Shorthorn cattle dispersals to be held in late August in Texas.

The first will be Saturday, August 20, of the Dr. James Miner Shorthorn herd at Pittsburg. About 85 lots of good, young Shorthorn cattle developed over the last eight years will sell.

The second will be the H. O. "Bud" Johnson's 43 Shorthorn herd of about 100 lots of high quality Shorthorn cattle at 10:30 a.m., Saturday, Aug. 27, at Chilton, Texas. The Johnson herd is a long established herd of high quality Shorthorns, according to Duncan.

Further information will be available from Double D Auction Service, Rt. 1, Box 203, Waskom, Texas 75092. James Duncan, phone 214/938-5874 or Jack Dillard, 214/887-2522.

Oklahoma City Monday

Oklahoma City, June 27, (USDA)—Receipts 4,000. Slaughter cows steady to firm; bulls mostly 1.00 higher. Cows: utility and commercial

Fort Smith Monday

Fort Smith, Ark., June 27 (F-S)—Receipts 2,900. Slaughter cows firm to 1.00 higher. Slaughter bulls about steady. Feeder steers 2.00-2.50 higher. Feeder heifers .50 higher. Slaughter cows: utility and commercial 2-4 21.00-25.00; high dressing utility 1-3 25.00-27.20; cutter 18.00-22.25; canner 17.00-18.75. Bulls: yield grade 1-2 1000-1600 lbs. 28.50-33.00. Feeder steers: choice 300-500 lbs. 39.00-44.00, few at 45.00-46.25; 500-700 lbs. 38.50-40.00. High good steers, choice bulls 300-500 lbs. 34.00-39.00, 500-700 lbs. 33.50-36.50. Good 300-700 lbs. 31.00-35.00. Heifers: choice 300-700 lbs. 29.50-34.25. Good 300-700 lbs. 26.75-32.00. Replacement cows: choice 2-5 year old 600-800 lb. cows 21.00-25.25. Cow-calf pairs: few low choice 2-5 year old cows with 75-150 lb. calves at side 221.00-240.00 per pair.

Kit Gray Jr.'s Brangus Bulls Leading CCC Test

Gainesville, Texas—Kit Gray Jr., Henrietta, Texas, has three Brangus bulls which are leading the 19th testing period at the Cooke County College Beef Evaluation Center, according to C. J. Davidson, director.

Twelve bulls in this test period went to the center Feb. 1, were warmed-up for 21 days, and officially began the 140-day test on Feb. 22.

The 28-day weighing showed the bulls to have made an average daily gain of 4.31 pounds; the 56-day weighing showed a 4.43 pound ADG for that period; the 84-day weighing showed 2.58 pounds ADG for that period, and the 112-day period showed the 12 bulls to have gained 3.82 pounds per day during that period.

Gray's top gainer has made an ADG of 6.13 pounds for the 112 days; his second bull 4.60 pounds ADG; and his third bull 4.29 pounds ADG.

Don Cole, Denton, has the next high gainer in this test period, a Simmental that has 4.25 pounds ADG for the 112 days.

Owners and breeders of other bulls in this test are: Johnnie McGraw, Denton, Simmental; J. J. Ginnings, Wichita Falls, Angus; Cooke County College, one Simmental and three Herefords; and Bill Blythe, Lindsey, Simmental.

Notional Shorthorn Youth Conference At Fort Worth

New officers and directors were chosen at the 10th Annual National Shorthorn Youth Conference held recently in Fort Worth, Texas.

Winners were also named in various competitions at the conference. Missouri state chapter took top honors in the commercial motto category with Illinois being named first in the purebred motto category. Kansas chapter took top honors in the best pair motto division. In scrapbook presentation and activities Tennessee took top honors. Named outstanding club, too, was Tennessee. In speech competition Jill Byers, Loudonville, Ohio took top honors.

A showmanship contest was also held during the annual event. Shelly Heckendorf, Castle Rock, Colo. took first place in individual competition. Melody Taylor, Prairie City, Ill. placed second. Judge for the event was Joe Lewis, Larnard, Kans. In team competition Miss Taylor was a repeat winner taking first place honors with her partner, Dean Slack, Wataga, Ill. Miss Heckendorf and Karen Heckendorf, Kersey, Colo., took second place.

The American Junior Shorthorn Association is an affiliate of the American Shorthorn Association, a national breeder's organization with over 7,000 members. The junior association is composed of individuals under 21 from all over the nation who are following family footsteps in promoting the Shorthorn breed.

Elected president was John Gunn, Greenfield, Ind. Assisting him as vice president is Rex Tribbett, Linden, Ind. Kay Aegerter, Seward, Neb. is secretary/treasurer, with Margaret McCullough, Allerton, Iowa in charge of public relations. New directors are: Melody Ann Taylor, Prairie City, Ill.; Lynne Dwyer, Waldorf, Minn.; Dale Nuss, Marietta, Kans.

Winners were also named in various competitions at the conference. Missouri state chapter took top honors in the commercial motto category with Illinois being named first in the purebred motto category. Kansas chapter took top honors in the best pair motto division. In scrapbook presentation and activities Tennessee took top honors. Named outstanding club, too, was Tennessee. In speech competition Jill Byers, Loudonville, Ohio took top honors.

A showmanship contest was also held during the annual event. Shelly Heckendorf, Castle Rock, Colo. took first place in individual competition. Melody Taylor, Prairie City, Ill. placed second. Judge for the event was Joe Lewis, Larnard, Kans. In team competition Miss Taylor was a repeat winner taking first place honors with her partner, Dean Slack, Wataga, Ill. Miss Heckendorf and Karen Heckendorf, Kersey, Colo., took second place.

The American Junior Shorthorn Association is an affiliate of the American Shorthorn Association, a national breeder's organization with over 7,000 members. The junior association is composed of individuals under 21 from all over the nation who are following family footsteps in promoting the Shorthorn breed.

ATTENTION CATTLE FEEDERS & DAIRYMEN

BLASTER-MIST SPRAYER

Completely stops blood-sucking flies, lice and ticks from robbing you of profits. Chemicals may be sprayed directly on stock and over feed troughs without contaminating feed.

BLASTER-MIST SPRAYER

Eliminates the need for aerial spraying and kills weeds and insects on more than 60 acres per hour. Ideal for weed or me-quite control in pastures, and insect control in orchards, truck farms, gardens, resorts, cities, villages, or anywhere chemical spraying is needed.

BLASTER-MIST SPRAYER

Attaches to any three-point hitch, is power-takeoff driven, has stainless steel chemical tank and oil-bath gear box delivering a high-volume, low pressure mist up to 100 feet.

UNCONDITIONALLY GUARANTEED FOR 12 MONTHS!

shorthorns

-A new look at an old breed

Shorthorns have been with us a long time and they're here to stay. This breed has proven that it can provide you with a steady, quality product. But Shorthorn breeders aren't satisfied with that. They are constantly improving the breed to provide the producer with success in a competitive market.

Look at these breed characteristics:

- ... Fast gain
- ... Reach choice grade at early age
- ... Excellent mothering ability
- ... Superior for crossbreeding
- ... Docile temperament

Steer calves in A.S.A.'s Sire Evaluation graded 100% choice on 90-day finishing ration.

It's a 90-day wonder—feedlot to market in just three months.

Looking for a "totally improved" breed that has kept intact its excellent characteristics for the producer? Go with the beef animal with the best product and the best profit.

Purkerson Brahman Dispersion Set For July 9, Cleveland

Cleveland, Texas — Purkerson Farms' Brahman mature breeding herd will be completely dispersed in a sale at the ranch near here at 1 p.m., July 9, announced sale manager John Watson, Devine.

Owner-manager Louie Purkerson says that pressing business interests are forcing him to drastically reduce the size of his cattle operation. He has one of the outstanding Gray Brahman herds in the country. They are based on the well-known V8 Ranch breeding of Howard Parker at Center, Texas.

Purkerson is dispersing his entire mature cow herd and his outstanding herd bull battery, but is keeping his 1975 and 1976 heifer crop so that as his situation changes, he will be able to rebuild his herd.

Selling will be 75 cows, at least 50 of which will have calves at side and many rebred. The eight herd bulls selling include a Loxycrate

Dennis Spencer Sets Chienina x Swiss Dispersion July 2

Waxahachie, Texas—A Complete Dispersion of Dennis Spencer's Chienina x Swiss Herd is set for July 2, 1977. Sale time is 12:00 noon at the Waxahachie Livestock Commission Co., Waxahachie, Texas.

Selling are 10 Chienina x Swiss with 3/4 calves at side, 40 Chienina x Swiss bred heifers in service to Overall Baron ASN B 3 and 4 and Esto bred bull from U. S. Sugar Corp., a V8 bred bull, a Garcia bred bull, a J. R. Partian L. S. U. Imperator bred bull and two top herd sires bred on the ranch.

Auctioneer will be Gerald Bowie. Requests for catalogs and other information should be directed to Watson Cattle Service, Rt. 1, Box 91, Devine, Texas 78016, phone 512/683-2740.

Information is also available from Louie Purkerson, Rt. 3, Box 739, Cleveland, Texas 77327, phone 713/692-2980 or 692-5570.

Montgomery Cattle

Montgomery, Ala., June 23 (F-S)—Receipts 2,600. Slaughter heifers 1.00-2.00 up; cows 1.00-3.00 higher; bulls .50-1.00 up on kinds offered; calves 2.75-4.50 higher; weights under 850 lbs. and vealers as much as 5.50 up; too few steers for comparison. Feeder steer calves and steers 1.50-4.00 up, 200-300 lbs. as much as 5.00 higher; heifer calves 1.00-3.00 open Chienina x Swiss heifers. These females are mostly daughters of Feltro.

A special feature of the sale is the offering a purebred Chienina bull, Overall Baron, an 11-28-74 son of Frigo, dam, Borelina. All of the heifers were bred at the Dennis Spencer farm near Prairie Grove, Arkansas. This is an excellent group of all Brown Swiss base Chienina bred to one of the outstanding young purebred Chienina bulls.

For catalogs contact the sale manager, Gayle Ingram, Box 570, Quitman, Texas 75783, 214/378-2225, or the owner, Dennis Spencer, Rt. 1, Prairie Grove, Ark. 72753, 501/824-5535.

Kimbell MEDICATED FEEDS ARE MONEY MAKERS

It goes without saying that no program or type of feed can guarantee a profit on a particular set of livestock. However, it is possible to guarantee that with proper management a feeding program will make livestock more valuable — better money makers.

KIMBELL Medicated Feeds Are Designed to Improve Animal Health and Balance Nutrition

This type of program improves the appearance, gives livestock the "good doing" look — this convinces your buyers they are "worth more." This type of program actually makes your livestock "do better" — control of disease and parasites adds pounds — they are "worth more."

Champion Supplement Pellets

FOR YOUR HORSE AND ALL SHOW ANIMALS

A highly fortified pellet especially formulated for all classes of show animals, furnishing the needed proteins, minerals and vitamins which may be lacking in grain and roughage feeds. Valuable as a supplement for brood mares, foals, finicky eaters, as well as fitting and conditioning show horses.

"Quality Products to Serve Agriculture"

WENDLAND'S FARM PRODUCTS, INC.
TEMPLE, TEXAS 76501

Beef Referendum YES

It's up to you. Vote July 5-15.

If you registered to vote in the beef referendum, return to your ASCS office now and cast a "yes" ballot.

You can vote anytime from July 5 through 15, during normal business hours.

A "yes" vote means that cattle producers will have the research, promotion and foreign market development tools they need to make the beef business more profitable.

The program will be funded by an automatic collection of 80¢ on each \$100 of cattle sales. But you can get a prompt refund in you don't want to participate.

The future of the beef industry is in your hands. Vote "yes" in the beef referendum. It could make things a whole lot better.

K Bar L Pinzgauer Percentage Dispersal July 9, Springtown

Springtown, Texas — Dick and Janie Kellett, Azle, and Dr. W. S. Lorimer, Jr., Fort Worth, owners of K Bar L Pinzgauer Ranches at Azle and Springtown will disperse their percentage Pinzgauer cattle in a sale at Dr. Lorimer's Walnut Creek Ranch north of here Saturday, July 9, at 6 p.m.

The percentage cattle are being dispersed to make room for pureblood Pinzgauers. The sale offering will include 61 lots including halfbloods, three-quarter bloods, and three purebreds. The purebreds are one yearling bull sired by Red Raider; one bred purebred daughter of Springer, and one open purebred yearling daughter sired by Wotan. Also included are K Bar L show cattle including some high-placing heifers in the 1976 American Pinzgauer Assn. futurity at Oklahoma City. Many of the females have calves at side.

K Bar L was one of the pioneers in the Pinzgauer breed in the U.S. and has built a highly select herd based on several beef breeds, but predominantly Hereford.

In addition to the sale, several purebloods will be on display from other leading Pinzgauer herds. The sale site is located west of Highway 199, three miles northwest of Springtown.

A pre-sale get-together including barbecue dinner will begin at 4 p.m. prior to the sale. Stanley Stout, Linwood, Kans., will be the auctioneer.

Sale headquarters will be the Holiday Inn, Midtown, in Fort Worth, phone 817/336-9311.

Further information is available from Dick and Janie Kellett, P.O. Box 732, Azle, Texas 76020, phone 817/777-2848 or 823-7394.

In order to qualify as an expert marksman, shoot first and draw the targets later.

This heifer by Wotan, a yearling pureblood Pinzgauer, will sell in the K Bar L Pinzgauer percentage dispersal of percentage cattle at 6 p.m. July 9 at Springtown, Texas.

K Bar L Bull Is Leading Pinzgauer Test At Cooke Co.

Galveston, Texas—In a special Pinzgauer testing period at the Cooke County College Beef Evaluation Center here there are 11 bulls on test. Delivered to the center April 18, the

bulls underwent a 21-day warm-up, and went on test officially May 9. The 28-day weighing on June 6 showed the 11 bulls to have gained an average of 8.99 pounds per day. T. J. Davidson, director, said.

K Bar L Pinzgauer, Azle, Texas, had the high gaining bull for the period at 4.82 pounds per day. K Bar L and W. J. Sparks Pinzgauers, Victoria, had the four leading bulls in the first weighing. Sparks one that gained 4.84 pounds per day. K Bar L another at 4.46 pounds per day, and Sparks another at 4.10 pounds per day.

Other Pinzgauer bulls in this test are owned by G. C. Pugh, Jr., Denton; Dan Scott, Dallas; and John Hackney, Greenville.

Proper ballistics of farm tractors can prevent wheel slippage and save up to 10 percent in fuel costs.

Dick Kellett, left, and Dr. W. S. Lorimer, owners of K Bar L Pinzgauer ranches at Azle and Springtown, look over some of the cattle they will sell July 9.

Calendar of Events

July 9—K Bar L Pinzgauer Production Sale, Springtown, Texas. October 15—Golden Valley Ranch Pinzgauer Production Sale, Paul Valley, Oklahoma.

October 16—Southwest Pinzgauer Regional Sale, Dallas, Texas. November 15—American Pinzgauer Association Annual Meeting, Louisville, Kentucky.

November 15-16—National Pinzgauer Show and Sale, Louisville, Kentucky. Sale Committee, c/o (405) 364-0730.

The Water Buffalo is a multi-purpose breed used for meat, milk, draft and sport.

K Bar L Pinzgauer's percentage dispersal will include the females above, with one of the bred three-quarter bloods in the foreground.

There will be two bred three-quarter bloods, six open three-quarter bloods, 25 bred halfblood cows, and 20 open halfblood heifers.

Southwest Animal Health Research Foundation Elects New Trustees

Mission, June 24: Six new trustees have been elected to the board of the Southwest Animal Health Research Foundation (SWAHRF), announces T. A. Kincaid, Jr., of San Antonio, president.

SWAHRF is the organization of livestock producers and sportsmen which promoted, and gathered funds, start of the Southwest Screwworm Eradication Program in 1962. Ranchers and hunters donated more than \$6 million to start of this program.

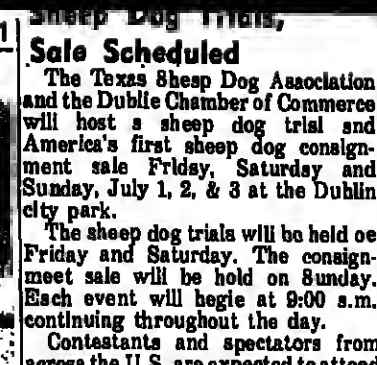

Newly elected trustees are Dr. W. A. Belcher of Brackettville; Joe B. Finley, Jr., of Eneida; Milton Har-

born of Seguin; Jim R. Hartman of Victoria; Raymond Hicke of Banders; and Roy Wheeler of Pleasanton.

All 33 SWAHRF trustees have been taking an active part in the "Mission 77: Stamp Out Screwworms" campaign, reports Kincaid. "That Texas went 18 consecutive days in June without a recorded screwworm infestation is a real milestone in the effort to rid the state of this flesh eating parasite," declares the longtime Ozona rancher.

Southwest Farm Show Expands to Lubbock

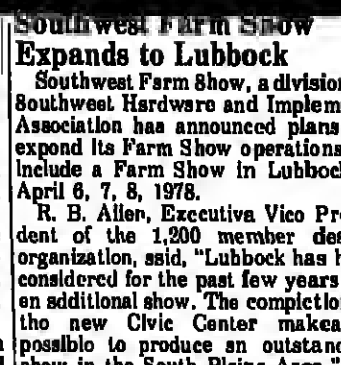

Southwest Farm Show, a division of Southwest Hardware and Implement Association has announced plans to expand its Farm Show operations to include a Farm Show in Lubbock—April 6, 7, 8, 1978.

R. B. Allen, Executive Vice President of the 1,200 member dealer organization, said, "Lubbock has been considered for the past few years for an additional show. The completion of the new Civic Center makes it possible to produce an outstanding show in the South Plains Area."

The "South Plains Farm Show", a three-day Lubbock event is expected to bring in thousands of visitors from Texas, New Mexico and Oklahoma.

The Southwest Farm Show in Fort Worth attracted more than 77,000 people in March of 1977 and is expected to continue to grow.

Dates for the Fort Worth Show have been set for March 10, 11, and 12, 1978. Texas Sheep Dog Association at 214-644-8152 or Al Denard, Liaison for the two organizations, at 817-445-3869, 445-3306, or 445-3307.

King P-234 Breeding
Featured In July 9
Fort Worth Horse Sale

Fort Worth — The regular Fort Worth Horse Sale will be held Saturday, July 9, 1977. Sale time is 12:00 noon at the Fort Worth Stockyards. Sale arena on East Exchange Avenue.
Selling will be 200 registered horse consignments including a good selection of cutting horses, barrel and roping horses, geldings, working horses and brood mares. There will be many good prospects for showing and junior owners.
A special feature of the July 9 sale will be a complete ranch, horse dispersal of 45 head. This dispersal includes King P-234 and King Ranch breeding. The dispersal includes brood mares in foal, mares with colts and bred back, weanlings and yearlings and yearling fillies.
For more information contact Fort Worth Horse Sale, 108 Livestock Exchange Bldg., Fort Worth, Texas 76108, 817/626-1776.

Riley Simmental And Brahmental Dispersion At Longview, July 2

Longview, Texas — Herbert Riley, a pioneer breeder of both Simmental and Brahmental cattle will have a dispersion sale, Saturday, July 2, 1977. Sale time is 11:00 a.m. at the Longview Livestock Commission Co. at Longview, Texas. To reach the sale location from I-20, exit on US 259 north toward Longview and turn right on FM 1845.

Selling at this Simmental and Brahmental Dispersion will be 200 head of cattle. Sale day phone is 214/753-4002.

Sale headquarters will be the Contessa Inn, Longview, 214/758-6111. Lunch will be available at the sale.

For information contact Herbert Riley, Frankston, Texas 75763, office 214/876-8382 or residence 214/876-2518; or the sale management and auctioneers, Reyes, Reyes and Elder, 118 West Nukoma, San Antonio, Tex. 78216, 612/349-2185, or Henry Elder, 2706 University Drive, Fort Worth, Texas 76109, 817/921-3788.

Campbell Brahman Dispersal July 2

Scott Campbell of Raymondville, Texas announces that he will have a complete dispersal of his Brahman herd on July 2, 1977. There will be approximately 226 lots including 101 producing females, 35 two year old exposed heifers, 30 yearling heifers, 35 two and three

year old commercial bulling bulls and three heifers. Mr. Campbell has been in the Brahman industry for several years and the foundation of his ranch and Pecan Ranch. He has several outstanding sons of Super Crata 1-229-3 in his herd. There will be lots of "229" and five top "229" in the sale as well as cows with calves by "Rafles" and "Buck".

The sale will be held on the ranch near Raymondville. Sale headquarters will be at the Motel in Edinburg, Texas. Inquiries should be directed to the sale management, write or by calling John Jones, 657-2212 or 713/342-501.

Mid-Coast Santa Gertrudis Avg. 41

Brenham, Texas — In the Mid-Coast Santa Gertrudis here June 11, the 10 lots averaged \$54,085 for an average of \$54,085 for an average of \$54,085.

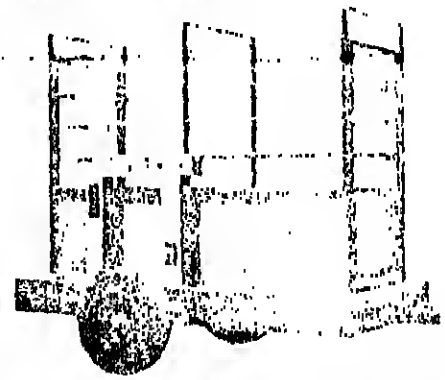

Seven bulls grossed an average of \$576, 116 "3" for \$48,185 for an average of eight "3-Bar" females for an average of \$329.

The sale was topped by Ranch, Brenham, bull purchased on July 2, 1977. There was \$1,000 by Double Circle.

Topping the females was ch, Riceville, cow with best pasture exposed to the next went to Bill Ranch for \$88.
